

Alustyle

Detailed product information
can be found on
www.bopla.de

- 3 profile variants
- 5 profile cross-sections
- Standard lengths ex warehouse
- Special lengths available at short notice
- Functional end covers
- Good EMC shielding
- Powder-coating, depending on type, similar to RAL 7024 or 9006
- Design seals in 5 colours
- Special colours on request
- Wide range of accessories

Colour:

Graphite grey, similar to RAL 7024 or silver, similar to RAL 9006; dark grey seal; special colours on request

Protection class:

ASP: up to IP 66 / IP 68 - 1,2m (2 hours) / DIN EN 60529 when used with ASD; ASPH: IP 65/DIN EN 60529; ASPU: IP 40/DIN EN 60529

Enclosure material:

Extruded profiles: Al Mg Si 0.5 powder-coated;
Ddiecast lid: zinc alloy Z410 / aluminium GD Al Si 12 (ASD 1540), powder-coated;

Seal: TPE;

for details see Technical Information

Constructive refinement, functional accessories and elegant design are certain to impress you

Variable lengths and the profile variants closed (ASP), horizontally divided (ASPH) or open on one side (ASPU) ensure versatile uses.

Recessed profile side for mounting membrane keypads up to 2 mm; smooth profile side for printing, laser engraving etc.

The PCB plug-ins have identical dimensions on all levels up to immediately under the lid area.

Contact surfaces which contact the lid to the profile guarantee good EMC protection. EMC seals are available if greater protection is required.

ASD – end cover with a 2 mm recessed area for fitting keypads or technical components.

Removable or hinged lids with a high level of protection are available when battery compartments or service interfaces are required.

Different design elements provide individual colour options and mechanical protection for the enclosure.

For wall mounting: wall fitting (AS...WB), wall bracket (AS...WL), universal wall fitting (AS...UWB)
